DNV SEASKILLS CERTIFICATION FOR SHIPS' SUPERINTENDENTS

A fact in modern day shipping is that ships are getting more sophisticated in technology and operations. Inevitably, managing it becomes more complex and it is a big challenge to the Owners, Operators, Managers and Superintendents.

By now you would have known the critical need of a competent ships' Superintendent to help boost your company's bottom line; from the reliability and productivity perspectives.

DNV SeaSkills has earlier circulated a letter on the benefits of the Testing and Certification of Key Personnel based on the globally acceptable competence standards.

We are pleased to inform you that **STET Maritime Education** has been certified by DNV SeaSkills to be a part of this process to qualify your Superintendents. **STET Maritime Education** is the only Examination Centre in this region for your Superintendents to take this certification examination.

Sign Up your Superintendents for the Certification now!!
