

Security Management Courses

Homeland Security is a department of ST Education and Training Pte Ltd, established to provide an independent security consulting and engineering solution to the public and private sector.

Our team in STET Homeland Security has the capability and resources to provide quality physical security education and training. We have scheduled courses running throughout the year. We can also customise our training to suit our client's needs and requirements.

Our Security Management Courses include:

1. Advance Security Management Programme
2. Investigation Techniques in Security Management
3. Facility Security Management
4. Workplace Security Management
5. Bomb Threat Security Management
6. Security Awareness Workshop
